Reproduction diagnostic · no validated velocity profile
A Independently fitted trials
Four layers, damped delays
Three layers, damped delays
Three layers, zero delays
Depth below sea level (km)
Velocity (km/s); solid P, dashed S
B Fixed holdout: 62 events, 1,065 arrivals
Four layers, damped delays
Three layers, damped delays
Three layers, zero delays
Original four-layer initialization
2025 holdout RMS (s)
Base
